Your request for Material Safety Data Sheets (MSDSs) for the following product (s) has been referred to me:

Roofing Products

Shingles, felts, and roll roofing products are considered "Articles" under the OSHA's Hazard Communication Standard and do not require an MSDS.

OSHA's definition of an "Article" is as follows: a manufactured item (1) which is formed to a specific shape or design during manufacture; (2) which has end use function (s) dependent in whole or in part upon its shape or design during end use; and (3) which does not release, or otherwise result in exposure to a hazardous chemical under normal conditions of use.

If you require any additional information, please contact me at 1-800-342-3745 or your nearest OCF Sales Representative.

Sincerely,
